

SIX KILLED, FIVE WOUNDED IN ELECTION FIGHT IN BREATHTOWN COUNTY, KENTUCKY

State Issues And Municipal Tickets Before Ohio Voters

COLUMBUS, O., Nov. 8.—(By the Associated Press)—Ohio voters were going to the polls today to vote on three proposed amendments to the state constitution, one of which would provide a bonus for Ohio veterans of the world war; for municipal officers, for members of county boards of education, for local tax assessors, and for numerous local bond issues.

Except in cities where there have been heated municipal campaigns, the vote was expected to be comparatively light, because of the light registration this year.

Soldier Bonus Up For Vote

Among the state issues, chief interest appeared to center on the fate of the soldiers' bonus amendment, under which the state would issue bonds to the sum of \$25,000,000 to pay Ohio veterans \$10 for each month in the service, the total not to exceed \$250.

The other two proposed amendments provide for a return of the poll tax, which was eliminated in Ohio in 1912, and for a senatorial redistricting of the state. All three amendments were initiated by the last legislature, the tax amendment to provide additional revenue for the state government, and the redistricting amendment to concentrate senatorial districts in which the centers of population have shifted since 1851, when the state was last redistricted.

See Defeat of State Measures

Because of the expected light vote, politicians here last night and today predicted the possible defeat of the redistricting and taxation proposals. Hugh K. Martin, state adjutant for the American Legion, predicted a large majority for the soldier bonus amendment, which has been endorsed by both political parties, by various chambers of commerce and by civic organizations of both men and women in all parts of the state.

General interest was being manifested today in several of the municipal elections, especially those in Newark, Dayton, Cleveland, Toledo and Cincinnati.

Hot Fight At Newark

At Newark, H. A. Artherton, Democrat, who was renounced as mayor of Newark last summer by Governor Davis, following charges that he permitted wide-open gambling under police protection, is opposing Samuel S. Orr, Republican. Artherton was nominated at a primary held after the filing of the charges against him, but before his removal.

In Dayton, Socialists are attempting to gain control of the city government through the election of three of their number to the city commission of five members. Three independents are running against the Socialists in the post, an unusually heavy vote in the past two elections.

Seven Candidates In Cleveland

Seven candidates for mayor are being voted for in Cleveland, and 178 candidates for council, fifteen of whom are women.

There are three candidates for chief justice of the municipal court, and twelve candidates for lower judgeships including two women. Four parties, including the Farmer-Labor party, have full municipal tickets in the city of Cincinnati. In Toledo, Solon T. Klutz, a Socialist, is running for mayor against Judge B. F. Brumbaugh, Republican, and Clarence A. Bechtel, Democrat. In Columbus councilmen are being voted for, as well as local bond issues.

Cold Wave Coming

CHICAGO, Nov. 8.—The Indian summer weather which has prevailed in the central Great Lakes section for several weeks is gone for good, according to the forecast announced today by Professor Henry Cox, government weather observer.

"There is a heavy rain in sight for Tuesday," he said, "and later on it may turn to snow which will be accompanied by strong winds from the north, blowing in a cold spell."

A snow storm prevailed in parts of Nebraska, Iowa, Wisconsin and South Dakota today.

Temperatures went down throughout the area, with twenty-two above at Valentine, the lowest officially recorded for Nebraska.

The snowfall was heavy in Omaha and other parts of eastern Nebraska, and Western Iowa, but no interruption to railroad or wire traffic was reported.

AMERICA'S PROGRAMME FOR LIMITATION OF NAVAL POWER OUTLINED

BY DAVID LAWRENCE

(Copyright, 1921, by Times Pub. Co.) WASHINGTON, Nov. 8.—America's programme for limitation of naval armaments has been practically agreed upon. The details remain to be shaped. The fundamentals are clear. They are:

FIRST—For every naval item given up by the United States there shall be an equivalent given up by other naval powers.

SECOND—The present ratio of naval strength shall be maintained in the sense that the United States shall not be placed in a weaker position to replace these ships but to economize by eliminating the expense of keeping up old vessels.

THIRD—The British have accepted the principle of equality with the United States, the disparity in strength between the two navies shall, at least, not be increased.

FOURTH—The phrase "limitation of armaments" is held to mean that all benefits shall be permitted to finish the building programme which they have already authorized. "Reduction of armaments" is held to mean that vessels still in commission but growing obsolete shall be scrapped and the tax burdens reduced by an agreement not to replace these ships but to economize by eliminating the expense of keeping up old vessels.

FIFTH—A definite understanding by all powers as to exactly what is meant by the term "replacement" with respect to vessels now in first-class condition but which may be eventually become inferior in value to new types of naval craft which may be designed in the future.

SIXTH—In considering naval strength, there shall be included merchant marine and all auxiliary vessels which can be possibly converted into war ships in an emergency as well as all bases fortified and unfortified which could be used in naval operations. In reducing armament expense, it is essential to consider the millions of dollars which are spent annually to maintain naval bases and repair stations at remote points. This question is most acute in connection with a possible naval conflict in the Pacific where bases are quite as important as the number of naval vessels available for a theoretical war.

The foregoing principles, as worked out by our naval experts, have been given to the American delegation consisting of Secretary Hughes, Senators Lodge and Underwood and former Senator Root. They will take care of all contingencies. It is up to the four members of the American delegation

DEMOCRATIC NOMINEES IN LOUISVILLE ARRESTED AND PLACED IN PATROL WAGON

LOUISVILLE, Ky., Nov. 8.—W. O. Overton, Harrison Democratic nominee for mayor of Louisville, started election day early today with a ride from a leading hotel to police headquarters in a patrol wagon, a prisoner.

With Mr. Overton on the ride was Dr. E. E. Mechlinger, Democratic nominee for sheriff of Jefferson county, and several other men. Mr. Harris was slated at police headquarters on charges of disorderly conduct and with interfering with an officer in the discharge of his duty.

Dr. Mechlinger said he went up to the hotel at this time and asked the officers what the men were arrested for. Not getting the information, he said he went to headquarters and later returned to the hotel, where he was arrested.

Mr. Harris, according to a statement issued by him last night, said that after he had retired he

was informed that three Democratic workers had been arrested. He arose, he said, and called Mayor Smith and asked for protection, later going to the hotel.

While there he witnessed the arrest of several men, he said, and made notes of the proceedings. One of the patrolmen he said, saw him sitting in the lobby and went to him, caught him by the arm and hustled him off to a waiting patrol wagon.

At police headquarters, James Dixon, a Courier-Journal reporter, who had been sent there to investigate, was arrested and charged with disorderly conduct, resisting an officer and conspiring to defraud in election.

Stated at headquarters with Mr. Harris and Dr. Mechlinger were nine other men, including Mr. Dixon. They were William Butler, manager of the hotel; George W. Eling, Frank Kenny and Alonzo Hew, Louisville; John Norman,

Central City, Ky., and Ernest Smith, Michigan, all charged with conspiracy to defraud in election.

Joseph and W. Ray Bosler, interfering with an officer in the discharge of his duty. All of the men were released under bond.

Paul Burlington, Republican, chairman of the board of safety, in a statement last night said that he had had information that the Democratic party was importing men to be used today in intimidating voters in the election. He said the officers had gone to the hotel to search for the men when the trouble with the Democratic candidates occurred.

Judge Robert W. Bingham, chairman of a committee recently appointed by Mayor Smith to insure a fair election, assumed charge of the situation early today. He declined to make a statement until he had made a complete investigation.

Overseas Veteran Served Term For "Buddy" Who Saved His Life In France

LEAVENWORTH, KANSAS, November 8.—Penniless Harry W. Haley, an overseas war veteran, was at liberty today under a war department order releasing him from the federal disciplinary barracks where he served five months of a six months sentence for desertion imposed upon Thomas G. Jones, his "buddy," and the man who saved his life while the two men were with the American expeditionary forces in France. Haley came to the barracks under the

name of "Jones," his reason for serving the sentence being that he wanted to repay part of the debt he said he owed Jones in saving his life. Jones, who is said to be married and living in Canada, is being sought by federal authorities.

Because he was not the real offender, Haley was released from the barracks without the usual railroad fare and small compensation given prisoners.

TAX REVISION BILL IS SENT TO CONFERENCE; TO NET \$3,250,000,000

WASHINGTON, D. C., November 8.—The tax revision proposal now faces its third rewriting, this time by the house and senate committee conferees. The measure finally was passed early today by the senate, 38 to 21, at the end of a continuous 18-hour session. It will be returned to the house tomorrow and Republican leaders there plan to send it to conference Thursday. It may reach the president for his approval late in the month.

At a rough estimate, treasury experts say the bill in its present form would not approximate \$3,250,000,000 or \$200,000,000 less than the present law and about the amount of revenue which treasury officers have said the government must have. Eventually the bill, the experts assert, would reduce the nation's tax toll by about \$750,000,000 a year.

While they undoubtedly will make changes in the measure the conferees are not expected to materially alter the total of revenue. As the bill now stands there are just three major provisions on which the house and senate agree. They are: repeal of the excess profits tax and the transportation tax on next January 1, and the reduction of the present tax on corporation capital stock.

Other outstanding provisions of the bill are: A reduction in the maximum surtax rate from 50 per cent on all over \$1,000,000 to 50 per cent on all over \$200,000, as against the house reduction to 32 per cent on all over \$50,000.

Retention of the house provision granting increased normal exemptions of \$500 to heads of families having net

PARIS, Ky., November 8.—Paris has been able from time to time to boast of freaks of the animal kingdom, including five-legged calves and three-legged chickens, but for the first time it has as its guest a rooster that smokes cigarettes.

"Warren G." numbers among his accomplishments the ability to smoke a cigarette.

CLIMAX IS NEAR IN THE IRISH SITUATION

LONDON, November 8.—Members of the Ulster cabinet have been summoned to London by their premier, Sir James Craig, to consider proposals by the British government in connection with Irish peace negotiations and Sir James is to confer further with Premier Lloyd George Thursday. The developments announced officially are deemed likely to indicate an approaching climax in the discussions of an Irish settlement. The situation is frankly admitted in official circles to have reached a critical stage.

Success or failure of peace negotiations now rests with Ulster. In the opinion of Sinn Fein delegates who declare that their proposals to the British premier with respect to Ulster are liberal enough to allow of a settlement if Ulster chooses.

The serious view taken in official circles is said to be due to the stiff attitude assumed by Sir James, who is represented as signifying that the proposed basis of settlement submitted by the British premier would, in his opinion, seriously impair Ulster's rights. Should this attitude be upheld by the Ulster cabinet and the

ELECTION BILLS TAKEN FROM AUTO; NEW BOSTON MAYOR AND OFFICERS ARE HELD ON HIGHWAY ROBBERY CHARGE

Mayor J. S. Davis, Socialist, Marshall Frank "Pete" Hall, Deputy Marshal John Henry and Dewey Parsons, of New Boston, were arrested by Sheriff E. E. Riekey about noon today, on charges of highway robbery, the charges growing out of the actions of Mayor Davis and his officers this morning when they took from an automobile accompanied by Republican candidate for mayor, Marion Poole, and two Republican campaign men, Herbert Riekey and Carey Jenkins, 1920 campaign bills or Republican campaign literature.

This afternoon at one o'clock Mayor Davis and his three officers appeared before Judge Sprague in Municipal court and entered pleas of not guilty and their trials were set for Thursday at one o'clock. All were released on \$500 bonds all being signed by Mayor Davis.

The bills were taken from the Republicans about 4:30 o'clock this morning the filing of charges against the officers and their subsequent arrest set all New Boston talking. Everywhere this morning the people were talking about the sensational actions of Mayor Davis and his officers. The men claim they had not passed any of the bills and were arrested without any cause. Mayor Davis claims that he ordered the arrest in violation of an election-day law which provides that no campaign literature shall be passed out on election day.

Last night after Mayor Davis' advertisement appeared in the evening Times, the Republicans of the village got busy and had a Portsmouth printer prepare them 1,600 bills. Early in the morning Mayor Davis and his friends learned of the bill printing and it is claimed that they even tried to stop the printing of the hand bills by calling the printer and telling him to cancel the order. The person calling said that they would pay the printer for the copy. When the printer asked who was calling, the person calling said it was "one of the bunch". Later the local printer called one of the New Boston campaign men and was informed that no cancel order had been officially given and was told to go ahead and print the bills. The printer went ahead and worked until early this morning when Carey Jenkins and Herbert Riekey called for them. Jenkins claims Traffic Officer Dewey Parsons stopped them when they were on their way to Portsmouth and after seeing who was in the machine told them to go ahead.

According to Jenkins he drove back to New Boston via Gallia street and after passing West avenue it was decided they would go to Marion Poole's home on Rhodes avenue and get him so he could help them pass the bills. They went south on Ohio avenue and west on Rhodes to Mr. Poole's home. According to Jenkins, Mr. Poole had

just climbed into the machine when Mayor Davis and his officers surrounded the car and demanded the campaign literature which they turned over to them.

Early this morning, Mr. Jenkins and his friends consulted a local attorney, who advised filing the charges of highway robbery. The papers were

sworn to and were given to Sheriff Riekey to serve. He located Mayor Davis and the three officers before noon and had them appear in court this afternoon.

Today at New Boston many voters said that the actions of Mayor Davis, they believed, had hurt his chances

for re-election. The fatal accident which befell Frank Huffman on Gallia street Sunday is also thought to have turned some Republican electors to other candidates and this morning the opinion of many were that the Democratic candidate, Newberry, would be the winner in the three-cornered race for mayor of the village.

VOTE IS LIGHT IN SOME PRECINCTS

Election Day dawned bright and clear, but as the day wore on and the ballots began to fall, the sunning gave way to cloudiness.

In some of the precincts a heavy vote was being polled while in others the voting up to 2:30 was rather

light. For instance in Precinct R of the Second Ward the normal strength of the precinct is 305. At 2:30 only 130 votes had been cast. It was said that only about half the registered voters were voting.

In other precincts a heavier vote

was being recorded and it is thought that by the time of the closing of the polls a heavy vote will be the order of the day.

The respective candidates were all active today and were confident of being returned a winner.

Miss Waite Will Open Tea Room This Week

Friends in this city of Miss Bertha Waite will be interested in the following concerning the tea room which she and Miss Post of Washington will open this week at Huntington, W. Va.

"The Green Gate tea room, preparations for which were initiated last summer, has only recently been completed, and will be opened the first of this week. The delay in opening was due to the fact that the quiet, soothing atmosphere which will be welcomed by the Huntington social public is the result of weeks of con-

centrated effort and experimentation on the part of skilled designers. Sponsors of this tea room are Miss Bertha Waite of Washington, D. C., and Miss Post of Washington, D. C. The tea room's name is derived from the quaint green swinging garden gate at the entrance. The idea of a garden will be enhanced by flowers boxed above on either side. The room is paved in an old-fashioned black and yellow striped design which emphasizes the Union furniture decorated in blue, yellow and black. The room

will be made cozy by the old English seats, the large open fireplace, the early English cupboards and the quiet corner where one may take advantage of ink and quill. Color will be added to the room by the hangings and the flowers. Java birds, song sparrows and Japanese robins. The birds will be caged in black and green wicker. Guests will be interested to inspect the kitchen, which is done in white and black enamel, with sweet fresh linen curtains.—Huntington Herald-Dispatch.

Injuries Are Fatal To Frank Huffman

Frank Huffman, well known young man of New Boston, who was seriously injured Sunday evening when run over by a main line street car, died this morning about 8:30 o'clock in Hempstead hospital, not being able to stand the shock of the injuries suffered and the amputation of his right leg above the knee Monday.

Attending physicians Sunday night held but little hopes for the recovery of Huffman who suffered serious injuries to both legs, a broken jaw, left foot and ankle crushed and broken so that the bones came through the flesh and a deep wound in the back near the hips.

Sunday night Huffman refused to let the physicians amputate his legs but Monday let them take off the knee joint. Later the physicians intended to take off the left leg just below the knee as it was in such a condition that it could not be saved.

Frank Huffman was 31 years of age. He was born in Ashland, Ky., and spent most of his life in that city. About ten years ago he moved to New Boston and since locating there had worked most of his time in the steel plant. He was employed as heater in the Whitaker-Glessner plant. While not working at the steel plant he worked as deputy marshal in the village.

He was married in New Boston to Miss Grace Cameron, daughter of Mr. and Mrs. Edward Cameron. The wife and one child, Wilton, aged five years, the mother, Mrs. Ida Huffman, of Vine street, five sisters, Mrs. John Humphill, Mrs. Sam Meyers, Mrs. H.

McCormick and Mrs. John Williams of New Boston, Mrs. E. Curry of Hopeville, Ky., and four brothers, Robert, Oscar, Ezra and Edward Huffman all of New Boston.

Mr. Huffman was widely known in New Boston. He was a hard worker

and a good husband and a man of many acquaintances. He will be greatly missed, not only by his relatives but by his legion of friends everywhere.

The funeral services will be held at New Boston, probably Thursday afternoon.

Hold Memorial Services

Impressive memorial services were held in Greenlawn cemetery Sunday when members of St. Mary's congregation assembled there to pay tribute to their dear departed relatives and friends. The special religious service was conducted by Rev. T. A. Goebel, assisted by the high school choir. After the prayers had been recited a

special military service was held. The bugle was beautifully sounded by Charles Martin. The roll-call was answered by four little girls. Alfred Scheffler had charge of the decorating of the graves of the war heroes, and great credit is due him for the splendid manner in which he handled the ceremonies.

Ask Business Houses To Close

At the weekly meeting of the Chamber of Commerce Board of Directors today noon the Board passed a resolution asking all business places and industries to observe Armistice Day Friday. They are asked to make a special effort to close their business places and plants for the day starting at 11 o'clock when the bells will ring and whistles will be blown announcing the hour that the armistice was signed

three years ago. All plants not able to shut down for the rest of the day are requested to shut down for five minutes starting at 11 o'clock. Merchants and citizens are urged to display flags on this day. This Armistice Day is a national holiday and has been proclaimed as such by President Harding and Governor Davis.

Say Chamblin Was To Lead Bandit Gang

According to word from Cincinnati today detectives here said they learned Monday that Roy Chamblin's mission there was to organize a gang of bandits, who would operate in and around Cincinnati during the winter

months. Chamblin is said to have known many crooks in the Queen City. He admitted this today and said there was hardly a dive in Cincinnati that he was not familiar with.

SOCIETY

A definite proposal canvass will be made this week by members of the Ladies' Musical in order that the seats yet unused for the approaching concert may be subscribed for.

There are still a good number of unoccupied seats in the two central sections of the auditorium, but the seats at either side, at the lower figure are in practically as good a location as those of the higher seats.

The crowd that flocked to the First Presbyterian church Sunday afternoon to hear "Ruth" under Foster Krake's direction, proved conclusively that Portsmouth people will always come out to hear something of a high order, that is well done. The artists who are to appear in these two concerts are as fine as can be heard in any large music center in the United States. But let no one think that they will be too "high-brow" to enjoy. On the contrary, it is always the greatest artist that makes the most universal appeal.

Let no one wait, thinking he can purchase single concert tickets, as none will be sold, unless the house is not entirely sold out with season tickets. This price of \$3.50 includes the two concerts, in which three great artists will be presented.

The food you eat does make a difference.

Heavy, starchy foods often do slow down body and mind—often steal the energy that belongs to the day's work. Grape-Nuts is a go-ahead food. Mesa, Colorado.—"Ever since I was a young girl I suffered from a great deal of pain every month. I tried different medicines, but only got relief for a short time. I had been married seven years, and wanted a child, but was not well enough. My mother advised me to try Lydia E. America's Programme

(Continued from Page One)

To determine just how far each principle can be applied. The navy is really presenting alternative plans. One plan may be predicted on a diplomatic settlement of certain disputes in the Far East. Another plan may be predicted on an absolute agreement with reference to fortifications. The navy is furnishing all its ideas to the American delegation, relying upon the latter to use those principles as the discussion develops.

Thus far it would seem as if the naval men would like to see limitations carried out literally by permitting the completion of the existing programs but many of them realize that this will not satisfy American public opinion which has hoped the conference would not merely bring about an equilibrium as between navies but which would actually reduce the naval expense. Reduction of arms race. Involuntarily becomes the objective and the real problem of the naval expert is to evolve a plan which will reduce expense by eliminating the superfluous parts of a navy without altering its main fighting strength.

When the American programme, however, is finally developed after the discussions have already begun, it would not be surprising to see the American delegation feel its way toward further reductions of expense even presenting proposals for radical cutting of naval programmes now under construction. This is at this time merely conjecture. The American delegation is preparing a moderate programme to lay before the conference, hoping eventually to modify and still further reduce expense. The navy department considers its function to keep the American delegation advised as far as the navy can be reduced, consistent with domestic safety. But the American delegation which has the responsibility of making America's policy at the conference must first obtain assurances and explicit agreements concerning the willingness of the other powers to make equivalent reductions in expense. The conference will not be a single nation's affair. It depends for success on co-operation. America will not limit her practical measures which are so definitely described as to leave no loop holes for international misunderstanding. That's the trend of policy in the preliminary discussions which now are in progress.

The train crew hooked up the train again without the mail car and proceeded to Champaign, where the injured were sent to a hospital.

WASHINGTON, D. C., November 8.—News of bringing an end to the wave of postal robberies throughout the country were discussed today by President Harding and his cabinet, and it was indicated after the meeting that Postmaster General Hays probably would have a statement to make in the near future on the subject.

Heavy Vote In Cincinnati

CINCINNATI, Nov. 8.—Clear skies brought the voters out en masse in the early morning hours and the balloting was extremely fast in the early morning hours, there only being seven short ballots to confront the electors. The chief fight seems to be between Gilbert Bettman, candidate on the Republican ticket, and Thomas Morrow, candidate on the Democratic and Independent Republican tickets for the vice mayoralty. In addition to a mayor, a vice mayor, municipal clerk, two municipal court judges, six councilmen at large and 26 ward councilmen and assessors are to be elected. The campaign managers of all three parties predict victory.

Painful Rheumatic Swellings Disappear

Discoverer Tells All Good Druggists Not to Take a Cent of Anyone's Money Unless Allergic Completely Banishes All Rheumatic Pains and Twinges.

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided after years of ceaseless study, that no one can be free from rheumatism until all accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He gave his discovery to others who took it with what might be called marvelous success. After years of urging he decided to let suffering everywhere know about his discovery through the newspapers. All druggists have been appointed agents for Allen's in the vicinity with the understanding that they will freely return the purchase money on the first two bottles to all who state they received no benefit—Advertisement.

Three Killed In Auto Mishap

CINCINNATI, O., November 8.—Three are dead, five seriously but not fatally injured, and the coroner is striving to fix the responsibility for the plunge of a careening automobile over a fifty foot embankment early today on the Chilhow Hill near Cleves. The dead are Celia Dinger, 16; Lucille Nabors, 18, and John Sullivan, 24. The injured are Charles Krippendorf, 26; Henry Hamsath, 22; Anna O'Donnell, 19; Thelma Siglock, 21; Robert Zwick, 20.

The machine was smashed and those killed were pinned under the twisted steel of the chassis. Zwick, the only one capable of throwing any light in the triple tragedy, said that the party was returning from a road house, where they had spent the evening. He said he was unable to make the quick turn in the road.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—these substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." They clear "clouded brain" and "perk up" the spirits. 15c and 30c. Advertisement.

The schedule for the Peerless will be continued through Thursday, Nov. 10. Then the schedule will be scrapped, and a new schedule made out. Is He Telling the Truth?
Everyone knows what an effect any form of excitement or of nervousness has upon the heart. Under their influence the heart beats only for a moment, perhaps—more rapidly, and the blood-pressure rises. The sphygmomanometer, as the instrument is called, registers even the slightest variation, enabling the investigator to see just which questions or suggestions produce nervousness. It is claimed that by its aid a skilled operator can always tell whether his subject is lying or telling the truth.

Tanks Start Tuning Up For Smoke House Game

(Ironton Register)

A heavy and fast football team from Ashville, O., has been booked as opposition for the Ironton Tanks at Beechwood Park next Sunday. The Tanks are now devoting all their time to rounding into real form and development of anew and intricate system of plays which they expect to unwork on the visitors next Sunday. The Ashville team played Portsmouth at Millbrook park last Sunday, but about half of its men were out, including a halfback star formerly of Ohio University and two good linemen, so that when the Ashvillians come to

Ironton they promise to be in prime condition. The game Sunday at Millbrook was 27 to 7 in favor of Portsmouth, but Ashville promises to be fifty per cent stronger for next Sunday, giving the Tanks a real struggle down the whole route.

It is believed that Hootie North and probably Iley Hall will join the Tanks this week for practice so that they may help to trim Portsmouth with an All-Ironton team and add to the glory of the conquest. Both are stars of brilliancy and would work much better behind the strong Tank line.

P. H. S. SQUAD IS HARD AT WORK

With definition rooms, dismissed on account of teachers' meeting, the basketball squad got to practice fully three-quarters of an hour earlier than usual, and Capt. Jack Cressy remarked: "May there be many more teachers' meetings." It was grand to see both Monk and Ellessor in uniform last night. These two stars have been on the recuperating list for the past three weeks. Neither of them entered in any work, wherein their arms would be taxed and their work was confined to running of light signal practice so as to be in good condition as far as wind is concerned and to refresh their memory on the old plays. It will be a few days until they will catch on to new plays. Neither had will be ready to get in the coming game with Ashland, but they will be heard from in the Chillicothe game week after next.

Brook is again eligible this week and will very likely be at his regular position as left end. Gamble is holding the right flank and will probably be in this position both offensively and defensively. Coach Fries is well liked for ends this week and will have three men to use at these positions and with Monk back for the Chillicothe game he will have four ends all of which have shown splendid work on the field.

The practice last night consisted in signal practice, which was fast and spirited. This was possible due to the fact that all the men came out of the game last week in good shape. Conditioning is coming to the point where very little stiffness or soreness prevails although a hard battle had been encountered. Several new plays were worked out to try out on A. H. S. and with scrimmage tomorrow their worth will be seen.

The practice was concluded with some three dummy practice and with a short talk by Coach Fries in an assembly room, wherein he cautioned all the men to study very hard each night so that all may be eligible for the trip to Chillicothe next week.

On returning from the Circleville trip, the mother of one of the members of the local squad was worried over the tardiness of her son, so she called up Jack's home and asked whether her son had been injured and Jack thoughtfully replied, "Oh, no, we have provided cutlups for the bench now."

Nomads Are In Fine Trim

Last night, in the Wilhelmite hall, the Nomad's basketball team held a signal practice lasting more than three hours.

All of the players are showing up well in practice and are shooting baskets in mid-season form.

They will hold one more practice this week on Wednesday night in the Moose hall in preparation for their game with the Rosemount Stars on Saturday night.

The Rosemount boys have a fast team.

The two teams will probably line up as follows:

Nomads—Barber, Ted Gordley and H. Gordley, forwards; Kramer or Butler, center; Phillips and Flowers, guards.

Rosemounts—Gable, center; D. Collins and Kearns, guards.

Anticipate A Tough Battle

CHILICOTHE, O., November 8.—Next Saturday the High School team, although badly battered up from the greenfield game, will go to Lancaster to give them the best possible under the circumstances. Despite Lancaster's defeat by Canal Winchester, the local eleven expects the hardest game of the season at Lancaster.

State Plays Purdue Next

The Ohio State team is already down to real work for the Purdue tilt in the Capital City this week-end. Every player emerged from the Chicago game in good shape. The grid-ders will work their heads off to win the only games left on their schedule, Purdue and Illinois.

Worcester, Mass., is the center of the mackerel industry in the United States.

Team Guilty Of Glaring Errors

HUNTINGTON, Nov. 8.—Huntington High's grid team was given a layoff Monday because of the strenuous week preceding the Parkersburg game. Martin and Britton were forced to the sidelines in the fierce battle with the Wood counties are still out on account of their injuries. It is doubtful if Martin will be able to take part in the Charleston game there the coming Saturday. The boy's injury is in his knee which will seriously handicap him in this week's workouts, but every effort will be made to get him in shape.

While Coach Wilson was far from satisfied with the work of his team against Parkersburg he realizes that the up-river lads were far more experienced at the grid game than his boys and is not roughing them too severely for their mistakes.

Western Gridiron Now Draws Much Attention

NEW YORK, Nov. 8.—Notre Dame's ability to run up 28 points shows the tremendous speed and power of Rockne's machine and, as Notre Dame had lost to Iowa, one gets again the great strength of Western football.

This was further shown by Ohio State's victory over Chicago, the team that looked invincible at Princeton only a short span ago.

Annual Track Inspection Is On

The annual track inspection of the Chesapeake & Ohio railroad began yesterday.

L. B. Allen, superintendent of maintenance of way and his assistants left Hinton yesterday on the first lap of the inspection.

The party reached Richmond yesterday afternoon and will go over the lines leading out of that city today.

It is expected that the entire week will be consumed in completing the inspection.

C. A. Thompson To Enter Race

The Washington correspondent of the Columbus Dispatch has the following on the senatorial fight next year:

"During the last week there has been virtually a new entry in the Ohio senatorial race, according to members of congress from the Buckeye State who are in a position to know. Carmi Thompson, of Cleveland, spent two days here and members and others who were invited to meet him are passing the word around that he has decided positively to enter the contest for the senatorial nomination. Inasmuch as Representative Fess reached the same decision some months ago it is safe to say that at the present time there are two Republicans in the race for the Ohio senatorial top, with others likely to follow. In this connection, Mr. Thompson explained to Ohio representatives that while his present home is at Cleveland he has always retained his voting residence at Ironton where he is also a heavy taxpayer."

Leonard To Meet Friedman

PHILADELPHIA, Pa., November 8.—George F. Harding, announced today that he had obtained the signature of Benny Leonard and Sailor Friedman, of Chicago for an eight round bout here November 22.

Leonard and Friedman were to have met in an open air ring here early in the fall but the match was prohibited by Director of Safety Cordery on the grounds that Friedman violated a contract with a local boxing club. The director said tonight the ban on Friedman had been lifted.

Volley Ball Tournament For Girls

At a recent meeting of the supervisors of the grade schools a volleyball tournament for girls was decided upon.

It will be held in the high school gym Nov. 17, 18 and 19, the schedule to be as follows:

Nov. 17, 4 p. m.—Union vs. Highland.

Come On Highland, What You Say?

Captain "Red" Shields of the Garfield school football eleven, has formed an eleven of eight grade pupils to defeat the Highland school eleven. Shields' Speeches through the Times issue a challenge to the Highland school team for a game to be played on the Sixteenth street lot Saturday morning.

Shields has selected players from nearly all the other school elevens and believes he has gotten together a team that will win Highland, which is laying claim to the fact that they can beat any eighth grade eleven in Scioto county.

Getting Chesty

Because the Ironton Panthers beat the Juniors here last Sunday, they are claiming the championship of the tri-state. They have issued an open challenge to any teams in this section.

Cultured Pearl is Never Large. There is a considerable discussion among pearl dealers as to the standing of the cultured pearl. Although it is made by exactly the same process as the real pearl, there is a difference which is readily detected by experts. It is claimed on behalf of the naturally grown pearl that the cultured pearl never grows to any great size, five to seven grains being the limit. It is also claimed that the cultured pearl lacks any warmth of color which is generally present in the natural pearl.

AN INVESTMENT AT INTEREST

THE American Federation of Labor, recalling the fact that during last year, the public was swindled out of five hundred million dollars by the peddlers of worthless and bogus "securities," calls upon the government to take steps to stop the operations of this particular class of frauds, and then goes a step further by urging the government to encourage investment in war savings stamps and securities.

That is a most excellent suggestion, even though the Federation does not seem to know the government is using all the means at its command to promote the purchase of its obligations. It does this by issuing them in such denominations that almost any wage earner can become a buyer of them to any extent and gradually, at such ratio as his earnings and his appreciation of thrift will permit, become a holder to a substantial amount. Yes, it goes further than that and exploits both the safety of its securities and the virtue of savings by all the means at its command.

In the latter work it presents some arguments and facts that are absorbingly interesting and astounding to conviction. Just to choose one specimen: In a recent pamphlet it supposes that wise Methuselah set aside one dollar when he was twenty-three, investing it at six per cent compound interest, as a heritage to his son. Methuselah, as you know, was gathered to Father Abraham's bosom at the ripe age of 969, but you don't have any idea of the fortune he left his eldest son, do you? No, and we advise you not to sit down and try to figure it out. The statistician of the government's savings department has kindly figured it out for you and all of us:

He set it down at 927 sextillion dollars. You have no more conception of the magnitude of those figures than we have, but with all your familiarity with billions, set the sum down and get a surprise. It will take twenty-four figures to express it, and they mean billions and billions of dollars added together and multiplied.

You can't hope to live as long as Methuselah did, but you can do better than he has done in imagination. You can invest one dollar in government savings stamps—yes, only a quarter, if that is the most you can do, every week and it will stand and grow until it becomes the security and comfort of your old age. And your children, when you are gone, will rise up and call you blessed, because you will have left them something more blessed than wealth, the knowledge that savings and interest are the most powerful elements in human happiness and prosperity.

JUST A DRAWN BATTLE

HAVING let sink in the great and glorious news of the victory achieved by the Independents, a combination of North Dakota Democrats and Republicans, in recalling the Non Partisan League state officers, the telegraph now comes forward with information that shows it was not so much after all.

Indeed, looking at the election, from this distance, it appears about an equal draw, for while the election determined the Non-Partisan League officials must go, it at the same time decreed that all the measures and enterprises inaugurated by the Non-Partisan legislature must remain.

There's consistency for you. The league must have a superabundance of faith in its ideas, or else a colossal stupidity. All of its ideals and ideas were ignominious failures, under direction and operation of their chief advocates, but they are going to be a superb success under administration by their enemies.

Fine logic to be sure, but it illustrates the way of the American voter. When he goes to the polls it is to vote against some, not to vote for anything, according to that once distinguished authority, George B. Cox, who knew more about elections than any man ought to know.

THE SUBSTANCE, NOT THE MANNER

A recent conference of the mutual savings banks association sets Ohio low down in the matter of thrift, many states leading her in that direction according to the statistics given out.

May be the figures given are accurate enough in a way, but they give a rather erroneous impression. They refer to a particular kind of savings, or savings after an individual method, and therefore do not so much as scratch the surface, when the total volume of savings are considered. Ohio has only three institutions conducted on the mutual savings bank plan, but she has hundreds of savings banks, banks that make a specialty of savings accounts and more buildings and savings associations than any state in the union, with the possible exception of Pennsylvania. Add the deposits in all these, together with savings in war stamps and Ohio people show their thrift in a grand total of savings that reaches close on to two billion dollars.

Where is the other state of anything like equal proportion that can show so well?

The Work Of The Eyes Seems Endless

From morning to night, seven days a week, we require them to perform their duties. They do so without complaint as long as possible, and even when they complain and ask for help they very seldom get it. It is a mistake of course, but we all do it. Gradually, though, folks are coming to see that it pays to give their eyes some consideration. It pays in many ways—in every way. Our service points the way to better eye health.

New-York-Day-By-Day

BY O. O. MONTYER

NEW YORK, November 8.—The only dime museum left in Manhattan is on 14th street, in a dingy, decaying building. Upstairs are offices filled with doctors who treat "men only." The museum here cannot compete with the pignicentric of cinema palaces along the one time Haight.

Twenty years ago Huber's Museum on Fourteenth street, Doris Muggins on Eighth Avenue and the old Globe Museum on the Bowery were as much New York institutions as Churchill's and Mector's—also closed and shuttered.

At the Bowery museum were George, the Turtle Boy, and Laloo the East Indian Enigma—a small girl's head grow from his body. Hor McCordell tells of a pool game in which George, the Turtle Boy, and Laloo were playing. Laloo pushed the 10 ball in the corner pocket with his elbow and the indignant Turtle Boy fairly snapped at him: "If you do that again I'll kick your sister."

Sailors flocked to museums and New Yorkers took their country cousins—Emma Slater, the Ossified Girl; Lilith, the Legless Lady; Madam Rosa, the Bearded Lady; Corinne, the Circassian Princess and Sword Swallower; George Auger, the Welsh Giant; Enoch, the Man Fish and Billy Wells the Iron Skull Man started the Bowery.

In those days Dana used to have a bright young reporter write a Monday morning story weekly about one of the Bowery's human curiosities. There were theatres back of the museums with tiny stages where some of New York's best known actors got their start.

The plays were full of action and melodrama. Among the titles were "The Dumb Boy of Manchester," "The Ticket of Leave Man," "Little Sure-shot, the Prince of the Prairie," "Death on Brooklyn Bridge at Midnight," etc.

The barkers were rare types, now extinct. They wore wide hats, ring-

bone watch chains, flowing black ties and fierce black dyed mustaches. I remember one in front of Huber's who called out: "Passing to the left of the Curio Hall we have the Wood Sisters—Rose Wood and May Hogany." Always he got a laugh.

Inspired by the appreciation he would continue: "On the right we have F. J. the One Legged Camel. Chained and shackled since birth, boys chained and shackled since birth!" "Pictureque places they were! And a young generation is missing many thrills."

Idealism some times dies hard! New York's Town Hall was built a year ago, an imposing edifice wherein public opinion would have its sway. It was a consecrated forum for Truth. Engraved in marble across the front were appropriate words from the doctrine of the Master: It was intended that public spirited men would make the walls ring like those of Independence Hall and Faneuil with addresses and debates. Just now the Town Hall is occupied by a negro musical performance with the gambling title "Put and Take." Instead of forensic artists there are clog, buck and wing dancers and shimmy shakers from the heart of Harlem's Black Belt.

But Masterson passed on in the editorial rooms of the Morning Telegraph just as he wished to go—with his boots on. The last time I saw the old war horse was three days before his demise. He was entertaining a few old cronies in his sanctum. But was the last link between the old West and the new. He had many notions on his gun yet he never killed save in the line of official duty. He was a terror along the old Santa Fe trail for years yet he was slight of stature and appeared more like a meek, plodding book-keeper than the quickest man in the old West on the draw. He knew how to shoot from both hips and he never missed his mark.

Much Giving in Marriage

Advance reports from Washington that marriages will number more than a million this year in the United States and may run to an unprecedented total have created surprise in view of business conditions, the cost of living and other things which might be regarded as obstacles in the way of matrimony.

But the theory that marriage appeals to humanity only in time of prosperity is a mistaken one. Desire for companionship for company in misery is universal. The poor have always been quick to resort to marriage. It is among the very rich where most traits are found, and naturally so. Abundance and luxury do not make men lonely. Poverty makes men lonely. When troubles abound the need of some one to lighten them is most keenly felt. Hard times are not deterrents of marriage.

Another thing has been noted in the history of hard times, when business difficulties prevail and employment is hard to find. People then not only "take to" matrimony in seeking happiness, but to religion. The great revivals in the churches are common in periods of widespread bankruptcy and general depression. One need not go far for the reason. In the face of failure men realize their weakness and need of solace. It is found in the exercise of religious principles. "Come ye disconsolate," has its strongest appeal when the happiness of fine prospects, money making, easy employment and abundance ceases, men naturally turn to the joys of intimate and loving companionship. When the material pleasures of life fail, only the spiritual ones remain, and marriage and religion yield them.

Fiction For Children and Adults

The boy no longer seeks tales of adventure in dime novels or any other page. He reads the great classics of fiction. With him are millions of young men and maidens, middle-aged husbands and matrons, themselves getting their love stories, their business stories, on the screen instead of in the book.

This may not be so true in the large cities as in the smaller ones and the villages, where the picture shows are convenient. But the fact remains that the movies are giving the general public the emotions formerly aroused by reading. This being true it becomes important that the presentations of fiction be of the highest quality. The movies shall be true to the realities of life.

Such ridiculously false things as the making of a crook or a home-wrecker into an admirable citizen or a respected lady by some pathetic incident should be censured out of pictures. They do not happen in real life. When a subject of all kinds means genuine amusement in all the movies, then the educational influence will be wholesome—and not till then.

Soldiering Ahead

The profession of arms is hazardous at all times, and particularly so at this time when adventure and misfortune lead men to service under foreign flags. Men who like active service in war, Americans and Canadians, who found employment in peaceful pursuits lacking on their return from Europe, have had a very sorry experience in the army of Spain, which has been engaged in a small war in Morocco.

Urged to service in the Spanish Foreign Legion by Spanish consuls at Boston and in Canada, they found on their arrival on the Moroccan Coast that their pay would be merely cents a day, and their traveling rations in service one box of sandwiches and a few biscuits (crackers) a day. They rebelled and were threatened with summary execution. This did not terrify them into submission, whereupon a bread and water diet was ordered for them. After three days of this they were dismissed and permitted to embark and work their way home, uttering maledictions on everything Spanish.

Great Britain, quick to resent indignities on her subjects by any foreign government, will investigate the brutal treatment the Canadians received. The American soldiers may be glad to reach native land alive.

The late Lord Astor's office in London, a Gothic structure of two stories, is to be sold at auction. It cost him \$1,250,000 and is valued in all its appointments, with vestibule, solid bronze doors, rare marble floors of intricate design, carved oak, cedar and satinwood walls, gold arched ceilings, door handles of solid silver and ivory, and other equipments equally costly. The building was erected twenty-seven years ago and is perhaps the finest ever built for a private business office.

Harvard announces that after an interval of forty years, a course in Chinese language will be resumed. The riches of Chinese literature are largely unknown yet, but digging for them by any American scholar is not what most of us would regard as a happy prospect.

Are Confident

(Fronton Register)

Bill Brooks, Clarence Poole, Gray Lucas and others saw the Portsmouth Ashville game Sunday. They are confident Fronton will be able to hand the Flood Wallers the merry razz.

Yes, Wake Up

Portsmouth III trounced Ashland III 7 to 6 Saturday. Just wait and see what Fronton III does to the River Citizens at Beechwood.

Well, too, you will have to wait till next year. The P. H. S. Fronton game was played a month ago. P. H. S. winning 7 to 0. Wake up!

The Last Word

Be friends with me! There is no time for words: Let us forget the ill that went before: Returns our love like spring returning birds: We dare not strive upon so dread a shore.

We dare not strive with death so close at hand: We needs must part as friends and lovers part: Since love alone shall live in that far land Forget the past, and fold me to your heart.

So heart to heart we wait; the night is chill: The gray sea rolls toward us and is dumb; So heart to heart, though death may work his will, We shall be one through all the life to come.

Better Taste

"But you must remember, Edith," said the young husband after the quarrel, "that my taste is better than yours."

"Undoubtedly," said Edith acidly. "When we remember that you married me and I married you."

Heart Renting

"I hear you had a quarrel with your sweetheart the other day," said the young man to the girl.

"Yes, she sneered at my apartment, so I knocked her flat."

Free Seeds

A congressman received almost daily letters from a constituent asking for garden seed, with emphasis on peas. The demand for peas got so heavy that the congressman was moved to write this letter:

"I am sending you a half dozen more packages of peas as requested. Say, what are you trying to do down there, plant the whole state in peas?" The reply came a few days later. It read:

"No, I'm not planting them, but they make bully soup. Send along some more."

His Revenge

James, eight years old, had been naughty to the point of evoking a whipping from his long-suffering mother, and at last longed for revenge rankled in his little bosom.

At length bedtime came, and, kneeling beside her, he implored a blessing on each member of the family individually, his mother alone being conspicuous by her absence. Then, rising from his devout posture, the little suppliant fixed a keenly triumphant look upon her face, saying, as he turned to climb into bed:

"I s'pose you noticed you wasn't in it."

Hardly Voluntary

The minister of a very poor church sought out a wealthy philanthropist to ask for aid. His mission was successful; then they chatted.

"Is your church supported by voluntary contributions, Mr. White?" asked the rich man, kindly.

The poorly clad clergyman sighed and shook his head:

"Well, hardly," he replied sadly. "Voluntary contributions would be nearer the mark. It's almost like pulling teeth to get money out of my congregation, sir!"

Money talks, but the German mark is barely able to make signs. Be sure you know what it's going to cost, then go ahead, is the wise course these days.

Great Moments in a Great Picture

Marguerite turns from Laurier

For all that she knew her husband was deeply devoted, for all his distinction in Paris, Marguerite had never loved him. But she had kept resolutely her share of the bargain in matrimony her parents had arranged—until one afternoon she visited the home of Marcel Desnoyers, and then—but that is part of the story of

Metro's

Rex Ingram Production

THE FOUR HORSEMEN Of the Apocalypse

Adapted by June Mathis from Blasco Ibañez's Novel

This Great Picture Will Open a Week's Engagement At The Columbia Next Monday. Two Shows Daily at 2:15 and 8:15. With All Seats Reserved.

Rex Ingram's \$1,000,000 production of "The Four Horsemen of the Apocalypse" made for Metro, is announced by the Columbia Theatre beginning Monday. This will be the first showing here of the screen version of Vicente Ibañez's novel that has been acclaimed in New York, Chicago, Boston, Pittsburgh, Detroit and Los Angeles as marking a new epoch in the development of motion pictures. At its New York opening people paid \$10 a seat. Critics said the picture had definitely established the screen not only as capable of rivaling the stage at its best, but surpassing it in its grip upon the emotions.

"The Four Horsemen" is the supreme expression of the Great War. Certainly no novel has stirred the universal appeal created by the Ibañez masterpiece. The book, now in its one hundred and sixty-sixth edition, has been read throughout the world. The monumental task of transferring it to the screen was accomplished by June Mathis, who made a scene that from all accounts has preserved the force of the original and in many incidents heightened it. But it is the director, Rex Ingram, who has apparently achieved the most sensational success. He is reported to have set a new mark in artistry of pictorialization.

Readers of the novel will recall that the story opens on the Argentine ranch of old Madrugada, whose territories are as extensive as those of the great independent barons of feudal times. And Madrugada rules with feudal power. A rioting, roystering despot, he is filled with Castilian pride of family and years for a male child to carry on his tradition. His two daughters have married ranch employees—one French and the other German. Madrugada's Latin antipathy to the German son-in-law brings with it a dislike of his half-German grandchildren. It is when a son is born to the Frenchman Desnoyers, the old man finds his dream realized. The boy, Julio, is selected as heir to the huge estate and is brought up as a spoiled prince of the realm. As a young man Julio becomes the companion of Madrugada's debauched adventures in Buenos Ayres tango resorts. But Madrugada dies suddenly without making a will and the German branch of the family finds itself sharing the estate equally with the Desnoyers. With this sudden wealth, the two families leave the Argentine for Europe.

The Desnoyers settle in Paris and Julio, an expert tango dancer, becomes the sensation of the fashionable dance places. He meets a fascinating little society woman, Marguerite Laurier, and the two of them are swept into a reckless love affair that takes no account of Marguerite's elderly husband. Their butterfly mentalities do not even respond at first to the sud-

den shock of the war that breaks about them. It is 1914 and the Germans are advancing toward Paris. Marguerite is first awakened to the realization of tremendous events. She joins the French nursing force and sacrifices her love of Julio in order to be the constant companion of her husband who is blinded in battle. Julio, left without the stimulation of frivolous attractions, hears the call of duty and enlists in the French army, where he meets death at the hand of his German cousin when the two face each other in a trench raid.

Through it all are galloping the four horsemen, spoken of by St. John in the Book of the Apocalypse—the grim figures of Conquest, War, Famine and Death.

The cast includes Rudolph Valentino, Alice Terry, Pomeroy Cannon, Joseph Swickard, Brinsley Shaw, Alan Hale, Bridget Clark, Mabel Van Burd, Brodewich (Smokes) Turner, Nigel de Bruin, John Sainpolis, Mark Fenton, Virginia Warwick, Derek Ghent, Stuart Holmes, Jean Hersholt, Henry Klaus, Edward Contelley, Georgia Woodthorpe, Kathleen Key, Walter Berry, Jacques d'Amory, Curt Reifeld, Vile Dolores, "Bull" Montana, Isabel Keith, Jacques Lanoie, Noble Johnson, Harry Northup, Minnie Gans, Arthur Hoyt and Beatrice Dominguez.

The photography is by John Seitz, and the technical direction by Amos Myers and Joseph Calder. Walter Maro was assistant to Rex Ingram.

Grace D'Armond in "THE BEAUTIFUL GAMBLER" And a Century Comedy "THE CLEAN UP"

Life is not what it seems—It's but a thing Made out of dreams

And it's the beautiful dreams of real life that

D.W. GRIFFITH portrays in his masterly production of "DREAM STREET"

A Dramatic Comedy Story created by Charles Thomas Burke

Another Crowning Success from the Master of Motion Pictures Arrives You at the Eastland Theatre Today, Tomorrow—Matinee and Night in D. W. Griffith's Greatest Production "Dream Street" Presented at Popular prices—Matinees 10 and 20 cents. Nights 15 and 30 cents. Shows at 1:30, 3:30, 5:30 and 8:30.

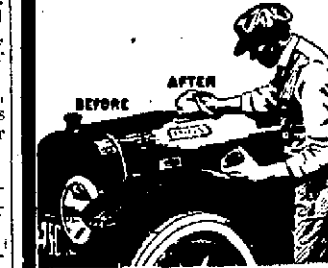

With hands that will know their way into the secret pockets of life David Wark Griffith has built a new tale of love and lovers, which was shown as "Dream Street" at the Eastland Theatre the first time yesterday. It is a story of the unusual. The very winds of beauty seem to blow across it. Mystery and high adventure lurk along the dim streets, folded in fog. Lovely and haunting pictures swim before the delighted eyes. The quick action swarms to a sudden suspense. Even the breath catches as the lovers again relax in sympathy with the sighing sweetness of the two lovers, who only know they are in love.

Much of Griffith is in it, and only a whisper of Thomas Burke, who wrote the stories which suggested the outline of the scenes. It is not a mere routine of the producer accurately describes "Dream Street" as a dramatic comedy.

It introduces three young players of exceptional interest: Ralph Graves as James "Spoke" McFadden, who conquers the girls with his great fists. Carol Dempster is Gypsy Fair, gentle brave and gay, swift and restless as a bird, with every pulse of her body singing with joy. The brother of "Spoke" is Charles Emmet Mack, the property boy of recent motion picture measure to race with the thrills, and again relax in sympathy with the sighing sweetness of the two lovers, who only know they are in love.

The story is told in a beautiful old street where plain humanity walks the dim pavements, with its faces, like all of us, occasionally turned to the stars.
